In the U.S., over 15,000 new
business applications are filed
daily.

Why is this a problem?

A

More Competition

More Competition = Less Attention

B

Less Exposure

Less Visibility = Less Opportunity

C

Lost Jobs

Lost Jobs = Missed Revenue

no website = lost jobs

How People Look...

Idea

When a potential client starts getting curious about remodeling their home. What do they do? They casually start looking online for ideas on their dream kitchen or bathroom.

Search

The research stage is the most crucial point. This is where they start searching for multiple contractors, opening several tabs and start comparing. Looking for credibility, professionalism, reviews, all to gain trust.

Narrow Down

They pick a small handful of contractors to consider calling and set a consultation. If you didn't build trust earlier, you're already out. They choose based on trust, professionalism, and perceived value.

If someone searches for your exact service today, your competitors show up and not you.

A website makes sure your business is working 24/7, bringing in opportunities even when you're off the clock.

Your website never has a day off..

24/7 Store Front

A website means your business is working even when you're not by capturing interest, building trust, and turning visitors into leads.

If you don't show up you don't exist.

24/7

People Look When You're Away

Most of your future customers are researching you when your phone is off.

Whether it's late at night or on the weekends. Be able to enjoy your time off.

Pre-sale

By the time someone contacts you, they've already seen your work and built trust.

Your website does the convincing so you can focus on closing.

Compete Even When You're Busy

You can't always respond instantly.

Even when you're on a job, your next job will find you.

Captures Leads

Missed Call = Lost Opportunity

Even if you miss the call, your website can still capture that customer.

Website → Visibility → Trust → Leads → Jobs → Revenue

Grow Your Company

Every day you don't have a website, you're losing jobs to someone who does.

This isn't about having a website, it's about getting you more of the right jobs.
